

Wyoming Reserve Component

BRAC 2005 Recommendation:

Transform Reserve Component facilities in the State of Wyoming into multi-functional installations that will enhance unit readiness, increase training opportunities, and generate operational efficiencies. These transformed facilities will provide the capability to conduct Soldier Readiness Processing and Home Station Mobilization, reduce the number of substandard/undersized Reserve Component facilities, enhance Anti-Terror/Force-Protection, promote effective recruiting and retention, and enhance the Homeland Security and Homeland Defense capabilities of the Army Reserve and the Army National Guard.

Gains:

- Build a new Readiness Center and Field Maintenance Shop – Joint Force Headquarters/Army Aviation Support Facility (AASF)/ Field Maintenance Shop, F.E. Warren AFB, Cheyenne

Losses:

- Close 2 National Guard Armories with State permission
 1. WYARNG AASF, Cheyenne (move to Joint Force Hqs/AASF)
 2. WYARNG Joint Force Headquarters Complex (move to Joint Force Hqs/AASF)
